SUBJECT INDEX

Acetate on the pancreas of sheep, Effect of intravenous injection of acetate 310
Acetonaemia and the fat cow syndrome in cattle, Effect on liver function of 221
Acetylcholinesterase in sheep infected with *Trichostrongylus colubriformis*, Evidence for the presence of nematode-derived acetylcholinesterase 136
Actinomyces pyogenes, Antibody response in the bovine genital tract to intrauterine infusion of 70
Action of dexamethasone in an equine model of acute non-immune inflammation 87
Age- and position-related heterogeneity of equine tendon extracellular matrix composition 357
Albendazole administered by an intraruminal slow release capsule, Pharmacokinetics in sheep and cattle of 271
Amikacin sulphate in calves and sheep, Comparative pharmacokinetics of 231
Amitraz on nerve conduction and neuromuscular transmission in anaesthetised dogs, Effects of 162
Analysis of the kinetics, isotype and specificity of serum and coproantibody in lambs infected with *Cryptosporidium parvum* 76
Antibody response in the bovine genital tract to intrauterine infusion of *Actinomyces pyogenes* 70
Antiglobulin test, Investigation into factors influencing performance of the canine antiglobulin test 53
Aspirin on xylazine-induced hypoxaemia in sheep, Effects of 386
Assessment of fat absorption in normal dogs and in dogs with hyperadrenocorticalism 38
Atracurium neuromuscular block with neostigmine in the dog, Reversal of 96
Attenuation of *Borrelia anserina* by serial passage in liquid medium 64
Aujeszky's disease virus in nasal cells of fattening pigs by immunoassay, Detection of 129

Bile in the pig and measurement of the biliary excretion of copper and zinc, A surgical technique for the long term collection of 28
Body composition and exercise in racing pigeons 321
Bordetella parapertussis, Pneumonia in mice produced by cell-free extract of cultures of 18
Borrelia anserina by serial passage in liquid medium, Attenuation of 64
Brucella ovis infection in rams, Comparison of subcutaneous and conjunctival routes of Rev 1 vaccination for the prophylaxis of 209

Caecum and colon of the horse, Liquid flow and capacity of the 265
Calcium-homeostasis defect in muscle and lymphocytes, Canine stress syndrome/malignant hyperthermia susceptibility 124
Canine stress syndrome/malignant hyperthermia susceptibility: calcium-homeostasis defect in muscle and lymphocytes 124
Chloropolysporin-C, a new glycopeptide-group antibiotic, on *Clostridium perfringens* isolates and its in vivo activity against *C perfringens* and other intestinal microflora of the caeca of broiler chickens, In vitro activity of 175
Clenbuterol on arterial oxygen tension in the anaesthetised horse, Effect of 331
Clostridium perfringens isolates and its in vivo activity against *C perfringens* and other intestinal microflora of the caeca of broiler chickens, In vitro activity of chloropolysporin-C, a new glycopeptide-group antibiotic, on 175
Colic and grass sickness, Serum lipids and lipoproteins in equine 170
Colon of the horse, Liquid flow and capacity of the caecum and 265
Comparative pharmacokinetics of amikacin sulphate in calves and sheep 231
Comparison of pepsinogen forms in cattle, sheep and goats 33
Comparison of subcutaneous and conjunctival routes of Rev 1 vaccination for the prophylaxis of *Brucella ovis* infection in rams 209
Cooperia oncophora in calves, Pathophysiological and parasitological studies on a concurrent infection of *Ostertagia circumcincta* 201
Copper, molybdenum and thiamine on in vitro, phagocytic and candidacidal activity of neutrophils in sheep, Effects of diets of high sulphur content and varied concentrations of 82
Cortisol in sheep plasma, An enzyme-linked immunoassay for the measurement of 262
Cowdria ruminantium: microscopical demonstration of the Kwanyanga stock in mouse tissue and the carrier-status of the Senegal stock in mice, Observations on mouse-infective stocks of 389
Creep feeding on structural and functional changes of the gut of early weaned pigs, Effect of 350
Cryptosporidium parvum, Analysis of the kinetics, isotype and specificity of serum and coproantibody in lambs infected with 76

Detection of Aujeszky's disease virus in nasal cells of fattening pigs by immunoassay 129

Detection of Mokola virus neutralising antibodies in Nigerian dogs 264
Dexamethasone in an equine model of acute non-immune inflammation, Action of 87
Dietary fishmeal versus soyabean meal: an assessment of serum and liver enzyme response in the chicken 267
Different sensitivities of Vero cells from two sources to avian reoviruses 379
Distribution of *Pasteurella haemolytica* in the respiratory tracts of carrier calves and those subsequently infected experimentally with *Dictyocaulus viviparus* 383
DL-α-tocopheryl acetate, Vitamin E concentrations in blood plasma of sheep and in sheep tissues after a single intraruminal or intraperitoneal administration of 158
Dictyocaulus viviparus, Distribution of *Pasteurella haemolytica* in the respiratory tracts of carrier calves and those subsequently infected experimentally with 383
Dictyocaulus viviparus, Immunity of calves treated with an oxfendazole pulse release bolus to challenge with 301

Effect of age on sensory nerve conduction velocity in the horse 141
Effect of clenbuterol on arterial oxygen tension in the anaesthetised horse 331
Effect of creep feeding on structural and functional changes of the gut of early weaned pigs 350
Effect of intravenous injection of acetate on the pancreas of sheep 310
Effect on liver function of acetonaemia and the fat cow syndrome in cattle 221
Effect of megestrol acetate on the endometrium of the prepubertally ovariectomised kitten 112
Effects of amitraz on nerve conduction and neuromuscular transmission in anaesthetised dogs 162
Effects of an inadequate dietary intake of magnesium on osteogenesis in dairy cows during the dry period 280
Effects of aspirin on xylazine-induced hypoxaemia in sheep 386
Effects of diets of high sulphur content and varied concentrations of copper, molybdenum and thiamine on in vitro phagocytic and candidacidal activity of neutrophils in sheep 82
Effects of electroimmobilisation on blood gas and pH status in sheep 314
Effects of inflammatory periodontal disease ('broken mouth') on the mobility of the sheep incisor 99
Effects of the caecal nematode *Trichostrongylus tenuis* on egg-laying by captive red grouse 59
Efficacy of paraherquamide against immature *Trichostrongylus colubriformis* in the gerbil (*Meriones unguiculatus*) 260
Egg formation cycle, Morphology of medullary bone during the 216
Electroimmobilisation on blood gas and pH status in sheep, Effects of 314
Endotoxin concentrations in the blood following intravenous injection and effect on prostaglandin $F_{2\alpha}$ release, calcium and bile acids in goats 190
Enteritis in lambs, Regional 338
Enzyme-linked immunoassay for the measurement of cortisol in sheep plasma, An 262
Epidemiology of *Nematodirus* species infections of sheep in a subarctic climate: development and persistence of larvae on herbage 327
Equine postanaesthetic myositis: a possible role for free radical generation and membrane lipoperoxidation 42
Erythrocyte fragility profiles for monitoring immune-mediated haemolysis in horses, Use of 138
Evidence for the presence of nematode-derived acetylcholinesterase in sheep infected with *Trichostrongylus colubriformis* 136

Fat cow syndrome in cattle, Effect on liver function of acetonaemia and the 221
Follicle characteristics of non-woolly Indian goats 257

Gastroenteritis virus, Sites of replication of a porcine respiratory coronavirus related to transmissible 165
Gerbil (*Meriones unguiculatus*), Efficacy of paraherquamide against immature *Trichostrongylus colubriformis* in the 260
Grass sickness, Serum lipids and lipoproteins in equine colic and 170

Haematological and histopathological findings in young broilers reared in poorly and well ventilated environments 374
Haemolysis in horses, Use of erythrocyte fragility profiles for monitoring immune-mediated haemolysis in horses 138
Haemonchus contortus, Influence of dietary protein on the immune responsiveness of sheep to 103
Haemonchus contortus, Pepsinogen types in worm-free sheep and in sheep infected with *Ostertagia circumcincta* and 108
Herpesvirus 1 and 4 in vivo, One way protection between equid 235
Hyperadrenocorticalism, Assessment of fat absorption in normal dogs and in dogs with 38
Hyperthermia susceptibility: calcium-homeostasis defect in muscle and lymphocytes, Canine stress syndrome/malignant 124
Hypoxaemia in sheep, Effects of aspirin on xylazine-induced 386

IgA in the porcine respiratory tract, Memory associated with 47
Immune defence mechanism against blood-borne *Pasteurella multocida* in turkeys 344
Immunisation of pigs with killed cultures of *Streptococcus suis* type 2 23
Immunity of calves treated with an oxfendazole pulse release bolus to challenge with *Dictyocaulus viviparus* 301
In vitro activity of chloropolysporin-C, a new glycopeptide-group antibiotic, on *Clostridium perfringens* isolates and its in vivo activity against *C perfringens* and other intestinal microflora of the caeca of broiler chickens 175
Inflammatory periodontal disease ('broken mouth') on the mobility of the sheep incisor, Effects of 99
Influence of dietary protein on the immune responsiveness of sheep to *Haemonchus contortus* 103
Influence of gestation on the pharmacokinetics of four sulphonamides in goats 152

Intestinal macromolecular transmission in underprivileged and unaffected newborn pigs: implications for survival of underprivileged pigs 184
Investigation into factors influencing performance of the canine antiglobulin test 53
Interspecies variation in the plasma halflife of oxytetracycline in relation to bodyweight 180

Lead intoxication in goats, Therapeutic potential of thiamine hydrochloride in experimental chronic 377
Liquid flow and capacity of the caecum and colon of the horse 265
Localisation of avian reovirus in the hock joints of chicken after entry through broken skin 381
Lymph flow from superficial tissues in the legs of horses, Pathways of 119

Magnesium on osteogenesis in dairy cows during the dry period, Effects of an inadequate dietary intake of 280
Medullary bone during the egg formation cycle, Morphology of 216
Megestrol acetate on the endometrium of the prepubertally ovariectomised kitten, Effect of 112
Memory associated with IgA in the porcine respiratory tract 47
Mitogen receptors in peripheral blood lymphocytes and blastogenic responses to mitogen, Relationship between 1
Mokola virus neutralising antibodies in Nigerian dogs, Detection of 264
Molybdenum and thiamine on in vitro phagocytic and candidacidal activity of neutrophils in sheep, Effects of diets of high sulphur content and varied concentrations of copper 82
Morphology of medullary bone during the egg formation cycle 216
Morphometric quantitation of early autolytic changes in rat myocardial cells 276
Mycobacterium tuberculosis complex, Tuberculosis in captive seals: bacteriological studies on an isolate belonging to the 196
Myocardial cells, Morphometric quantitation of early autolytic changes in rat 276
Myositis: a possible role for free radical generation and membrane lipoperoxidation, Equine postanaesthetic 42

N-acetyl-β-D-glucosaminidase in somatic cells during experimental bovine mastitis induced by endotoxin, *Staphylococcus aureus* or *Streptococcus agalactiae*, Sequestration of 306
Nematodirus species infections of sheep in a subarctic climate: development and persistence of larvae on herbage/Epidemiology of 327
Neostigmine in the dog, Reversal of atracurium neuromuscular block with 96
Nerve: teased fibre studies, Quantitative and qualitative morphology of equine peripheral 145
Neurofibroma, Trisomy D2 in a feline 256
Neuropathic oesophagus. A radiographic and manometric study on the evolution of megaoesophagus in dogs with developing axonal neuropathy, The 249

Observations on mouse-infective stocks of *Cowdria ruminantium*: microscopical demonstration of the Kwanyanga stock in mouse tissue and the carrier-status of the Senegal stock in mice 389
Oesophagus. A radiographic and manometric study on the evolution of megaoesophagus in dogs with developing axonal neuropathy, The neuropathic 249
Olaquindox in the rat, Phototoxicity of 240
One way protection between equid herpesvirus 1 and 4 in vivo 235
Osteogenesis in dairy cows during the dry period, Effects of an inadequate dietary intake of magnesium on 280
Ostertagia circumcincta and *Cooperia oncophora* in calves, Pathophysiological and parasitological studies on a concurrent infection of 201
Ostertagia circumcincta and *Haemonchus contortus*, Pepsinogen types in worm-free sheep and in sheep infected with 108
Ostertagia species secretion, Stimulated pepsinogen secretion from dispersed abomasal glands exposed to 6
Oxfendazole pulse release bolus to challenge with *Dictyocaulus viviparus*, Immunity of calves treated with an 301
Oxytetracycline in relation to bodyweight, Interspecies variation in the plasma halflife of 180

Paraherquamide against immature *Trichostrongylus colubriformis* in the gerbil (*Meriones unguiculatus*), Efficacy of 260
Pasteurella haemolytica in the respiratory tracts of carrier calves and those subsequently infected experimentally with *Dictyocaulus viviparus*, Distribution of 383
Pasteurella multocida in turkeys, Immune defence mechanism against blood-borne 344
Pathophysiological and parasitological studies on a concurrent infection of *Ostertagia circumcincta* and *Cooperia oncophora* in calves 201
Pathophysiology of the periparturient egg rise in sheep: the role of prolactin 295
Pharmacokinetics in sheep and cattle of albendazole administered by an intraruminal slow release capsule 271
Pathways of lymph flow from superficial tissues in the legs of horses 119
Pepsinogen forms in cattle, sheep and goats, Comparison of 33
Pepsinogen secretion from dispersed abomasal glands exposed to *Ostertagia* species secretion, Stimulated 6
Pepsinogen types in worm-free sheep and in sheep infected with *Ostertagia circumcincta* and *Haemonchus contortus* 108
Pethidine administered intramuscularly and intravenously to dogs over 10 years old, Pharmacokinetics of 245
Pharmacokinetics of pethidine administered intramuscularly and intravenously to dogs over 10 years old 245
Phototoxicity of olaquindox in the rat 240
Phenylhydrazine-hydrochloride, Sequential morphological changes in chicken erythrocytes after in vivo and in vitro exposure to 12
Pigeons, Body composition and exercise in racing 321

Pneumonia in mice produced by cell-free extract of cultures of *Bordetella parapertussis* 18
Prolactin, Pathophysiology of the periparturient egg rise in sheep: the role of 295

Quantitative and qualitative morphology of equine peripheral nerve: teased fibre studies 145

Regional enteritis in lambs 338
Relationship between mitogen receptors in peripheral blood lymphocytes and blastogenic responses to mitogen 1
Reovirus in the hock joints of chicken after entry through broken skin, Localisation of avian 381
Reoviruses, Different sensitivities of Vero cells from two sources to avian 379
Respiratory coronavirus related to transmissible gastroenteritis virus, Sites of replication of a porcine 165
Reversal of atracurium neuromuscular block with neostigmine in the dog 96
Rotavirus from sows to piglets and serological responses following natural infection, Transfer of maternal antibody against group A 365

Seals: bacteriological studies on an isolate belonging to the *Mycobacterium tuberculosis* complex, Tuberculosis in captive 196
Sensory nerve conduction velocity in the horse, Effect of age on 141
Sequential morphological changes in chicken erythrocytes after in vivo and in vitro exposure to phenylhydrazine-hydrochloride 12
Sequestration of N-acetyl-β-D-glucosaminidase in somatic cells during experimental bovine mastitis induced by endotoxin, *Staphylococcus aureus* or *Streptococcus agalactiae* 306
Serum lipids and lipoproteins in equine colic and grass sickness 170
Sites of replication of a porcine respiratory coronavirus related to transmissible gastroenteritis virus 165
Spermatogenesis in Bali cattle (*Bos sondaicus*) and hybrids with *Bos indicus* and *Bos taurus* 288
Staphylococcus aureus or *Streptococcus agalactiae*, Sequestration of N-acetyl-β-D-glucosaminidase in somatic cells during experimental bovine mastitis induced by endotoxin 306
Stimulated pepsinogen secretion from dispersed abomasal glands exposed to *Ostertagia* species secretion 6
Streptococcus agalactiae, Sequestration of N-acetyl-β-D-glucosaminidase in somatic cells during experimental bovine mastitis induced by endotoxin, *Staphylococcus aureus* or 306
Streptococcus suis type 2, Immunisation of pigs with killed cultures of 23
Sulphonamides in goats, Influence of gestation on the pharmacokinetics of four 152
Sulphur content and varied concentrations of copper, molybdenum and thiamine on in vitro phagocytic and candidacidal activity of neutrophils in sheep, Effects of diets of high 82
Surgical technique for the long term collection of bile in the pig and measurement of the biliary excretion of copper and zinc, A 28
Swainsonine toxicosis suppresses appetite and retards growth in weanling rats 228

Tendon extracellular matrix composition, Age- and position-related heterogeneity of equine tendon 357
Therapeutic potential of thiamine hydrochloride in experimental chronic lead intoxication in goats 377
Thiamine hydrochloride in experimental chronic lead intoxication in goats, Therapeutic potential of 377
Thiamine on in vitro phagocytic and candidacidal activity of neutrophils in sheep, Effects of diets of high sulphur content and varied concentrations of copper, molybdenum and 82
Transfer of maternal antibody against group A rotavirus from sows to piglets and serological responses following natural infection 365
Trichostrongylus colubriformis in the gerbil (*Meriones unguiculatus*), Efficacy of paraherquamide against immature 260
Trichostrongylus colubriformis, Evidence for the presence of nematode-derived acetylcholinesterase in sheep infected with 136
Trichostrongylus tenuis on egg-laying by captive red grouse, Effects of the caecal nematode 59
Trisomy D2 in a feline neurofibroma 256
Tuberculosis in captive seals: bacteriological studies on an isolate belonging to the *Mycobacterium tuberculosis* complex 196

Use of erythrocyte fragility profiles for monitoring immune-mediated haemolysis in horses 138

Vero cells from two sources to avian reoviruses, Different sensitivities of 379
Vitamin E concentrations in blood plasma of sheep and in sheep tissues after a single intraruminal or intraperitoneal administration of DL-α-tocopheryl acetate 158

Xylazine-induced hypoxaemia in sheep, Effects of aspirin on 386
